Summary

Full Stack Web Developer with 5 years of background in Information Technology. Effective at combining creativity and problem solving to develop user-friendly applications. Known among staff for strong wit and attention to detail no matter the complexity of the project, recently earned a Certificate in Full Stack Web Development from the University of Richmond.

Technical Skills

HTML, Git, CSS, CSS3, Javascript, Java, JQuery, Web-API's, Third party API's, Server Side API's, RESTful APIs, NODEJS, OOP, Express, MySQL, NoSQL, Oracle, ORM, MVC, REACT.js, Backend Development, Algorithm and Software Development, C++, Linux, Spring, Angular.

Projects

Note Taker: As a small business owner, I want to be able to write and save notes so that I can organize my thoughts and keep track of tasks I need to complete.

- Technologies used: HTML, CSS, Javascript, Express.
- GitHub: <https://github.com/randyfasion/Note-Taker>
- Deployed Application: <https://randynotetaker.herokuapp.com>

Team Profile Generator: This application takes in information about a team at a Software Engineering company. It then generates a HTML page to display all the information that was entered about the team. Also, all four of the class modules (employee, intern, manager, and engineer) are tested using Jest.

- Technologies used: HTML, CSS, Javascript, Jest.
- GitHub: <https://github.com/randyfasion/Team-Profile-Generator>
